pierre.delaby@intoo.fr
Project Manager at Intoo

Profile

I am a French web developer living in Aarhus. I relocated to Aarhus to join my girlfriend after an internship as a full-stack developer. I have learned to solve problems, working on administration systems for corporate customers during this internship in a small agile team.

As a person, I am patient, positive, reliable and motivated to learn more in a passionate team.

Experience

Full-stack developer, Internship, Intoo, 09/2019 - 08/2020

Technologies : Java, Angular, Spring Boot

Nancy, France

- Cooperated with an experienced designer to build intuitive and pleasant experiences for users
- Learned from a senior developer to participate in large, complex projects for corporate clients
- Worked with CI/CD tools to automatize the testing and deployment process
- Developed administration system for companies to help them modernize their processes
- Worked in autonomy on specific tasks, from requirement to solution

Front desk receptionist, Court of justice, 09/2016 – 04/2017

Charleville-Mézières, France

- Administrative work, helped users with procedures of court and paperwork
- Worked with people from different backgrounds

Hobbies & personal goals

My plan is to settle in Denmark and learn the language. I was in Denmark during my exchange semester; it was an amazing experience, I discovered a peaceful, caring community that I want to become a part of.

In my free time, I enjoy playing badminton, reading and gaming. I participated in high level competitions of Magic The Gathering, which gave me the opportunity to travel the world, developing social relations and life skills.
